This message is being viewed in an archive.

You will soon receive an email from CMS, if you have not received one already, stating that a file is awaiting download from their website. This file or files was placed there so that EPA could receive the shapefiles from a GIS mapping tool developed for us by Western Illinois University. If you have any questions on the files, please let me know. I have copied James Coleman and Julianne Socha at Region 5 who are familiar with this project and may also be consulted.

This Email message contained an attachment named
image001.jpg
which may be a computer program. This attached computer program could contain a computer virus which could cause harm to EPA's computers, network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced into the EPA network. EPA is deleting all computer program attachments sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you should contact the sender and request that they rename the file name extension and resend the Email with the renamed attachment. After receiving the revised Email, containing the renamed attachment, you can rename the file extension to its correct name.

For further information, please contact the EPA Call Center at

(866) 411-4EPA (4372). The TDD number is
(866) 489-4900.
